

Modeling and optimization of oil refinery wastewater chemical oxygen demand removal in dissolved air flotation system by response surface methodology

Formatted: Article title

Yasser Vasseghian

Formatted: Author names

Chemical Engineering Department, Faculty of Engineering, Razi University, Kermanshah, Iran.

Provide full correspondence details here including e-mail for the corresponding author

Provide short biographical notes on all contributors here if the journal requires them.

Commented [A1]: All authors of a manuscript should include their full name and affiliation on the cover page of the manuscript. Where available, please also include ORCIDs and social media handles (Facebook, Twitter or LinkedIn). One author will need to be identified as the corresponding author, with their email address normally displayed in the article PDF (depending on the journal) and the online article. Authors' affiliations are the affiliations where the research was conducted. If any of the named co-authors moves affiliation during the peer-review process, the new affiliation can be given as a footnote. Please note that no changes to affiliation can be made after your paper is accepted. [Read more on authorship.](#)

Please provide all the relevant information here.
